NOW THE HARD WORK BEGINS

So that the community can make the Blue Bell fit for purpose a significant amount of work needs to be carried out. It needs to be made brighter and airier with more space and light; it needs to be wheelchair friendly with better disabled access; the bar area needs a total revamp to create space for the café and this entails knocking down some walls, we need a commercial kitchen plus the building needs rewiring and a new heating system

All this costs money which is why we have set up the Blue Bell Community Hub Refurbishment Fund. We have £20,000 in the pot so far but need the rest (£130,000) to make it happen. Some of this will come from grants, the balance (50%) needs finding through more community share sales, donations, other investors and community fundraising events.

We will only have this one chance to get the Blue Bell ready for the next 20 years or so. Over 150 shareholders and supporters have helped us so far and we thank them all.

We need those, who may have waited to see if the community achieved the purchase, to come forward now and support us. The quicker we get the work done the quicker we can all enjoy the Hub.

Keep up to date with the project, news and events as they are launched.
